The Chinese Government having (through the Hon. Anson Burlingame) conceded to this Company the privilege of connecting the great seaports of the Empire by submarine electric telegraph cable, we propose commencing operations in China, and laying down a line of nine hundred miles at once, between the following port s, viz:

	Population.
Canton	1,000,000
Macoa	60,000
Hong-Kong	250,000
Swatow	200,000
Amoy	250,000
Foo-Chow	1,250,000
Wan-Chu	300,000
Ningpo	400,000
Hang Cheau	1,200,000
Shanghai	1,000,000
Total	5,910,000

These ports have a foreign commerce of $900,000,000, and an enormous domestic trade, besides which we have the immense internal commerce of the Empire, radiating from these points, through its canals and navigable rivers.

The cable being laid, this company proposes erecting land lines, and establishing a speedy and trustworthy means of communication, which must command there, as everywhere else, the communications of the Government, of business, and of social life especially in China. She has no postal system, and her only means now of communicating information is by couriers on land, and by steamers on water.

The Western World knows that China is a very large country, in the main densely peopled; but few yet realize that she contains more than a third of the human race. The latest returns made to her central authorities for taxing purposes by the local magistrate make her population *Four hundred and Fourteen millions*, and this is more likely to be under than over the actual aggregate. Nearly all of these, who are over ten years old, not only can but do read and write. Her civilization is peculiar, but her literature is as extensive as that of Europe. China is a land of teachers and traders; and the latter are exceedingly quick to avail themselves of every proffered facility for procuring early information. It is observed in California that the Chinese make great use of the telegraph, though it there transmits messages in English alone. To-day great numbers of fleet steamers are owned by Chinese merchants, and used by them exclusively for the transmission of early intelligence. If the telegraph we propose connecting all their great seaports, were now in existence, it is believed that its business would pay the cost within the first two years of its successful operation, and would steadily increase thereafter.

No enterprise commends itself as in a greater degree renumerative to capitalists, and to our whole people. It is of vast national importance commercially, politically and evangelically.

☞The stock of this Company has been unqualifiedly recommended to capitalists and business men, as a desirable investment by editorial articles in the New York *Herald*, *Tribune*, *World*, *Times*, *Post*, *Express*, *Independent*, and in the Philadelphia *North American*, *Press*, *Ledger*, *Inquirer*, *Age*, *Bulletin* and *Telegraph*.

Shares of this company, to a limited number, may be obtained at $50 each, $10 payable down, $15 on the 1st of November, and $25 payable in monthly instalments of $2.50 each, commencing December 1, 1868, on application to

Hoofland's Column.

YOU ALL
HAVE HEARD OF
HOOFLAND'S GERMAN BITTERS,
AND
HOOFLAND'S GERMAN TONIC.

Prepared by Dr. C. M. Jackson, Philadelphia.

Their introduction into this country from Germany occurred in

1825.

THEY CURED YOUR
FATHERS AND MOTHERS,

And will cure you and your children. They are entirely different from the many preparations now in the country called Bitters or Tonics. They are no tavern preparation, or any thing like one; but good, honest, reliable medicines. They are

The greatest known remedies for
Liver Complaint,
DYSPEPSIA,
Nervous Debility,
JAUNDICE,
Diseases of the Kidneys,
ERUPTIONS OF THE SKIN,
and all Diseases arising from a Disordered Liver, stomach, or
IMPURITY OF THE BLOOD.

Constipation, Flatulence, Inward Piles, Fullnes of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried or Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a Lying Posture, Dimness of Vision, Dots or Webs before the sight, Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, etc., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil and Great Depression of Spirits.

All these indicate diseases of the Liver or Digestive Organs, combined with impure blood.

HOOFLAND'S GERMAN BITTERS

is entirely vegetable and contains no liquor. It is a compound of Fluid Extracts. The Roots, Herbs, and Barks from which these extracts are made, are gathered in Germany. All the medicinal virtueus are extracted from them by a scientific Chemist. These extracts are then forwarded to this country to be used expressly for the manufacture of these Bitters. There is no alcoholic substance of any kind used in compounding the Bitters, hence it is the only Bitters that can be used in cases where alcoholic stimulants are not advisable.

HOOFLAND'S GERMAN TONIC

is a combination of all the ingredients of the Bitters, with PURE Santa Cruz Rum, Orange, etc. It is used for the same diseases as the Bitters, in case where some pure alcoholic stimulus is required. You will bear in mind that these remedies are entirely different from any others advertised for the cure of the diseases named, these being scientific preparations of medicinal extracts, while the others are mere decoctions of rum in some form. The TONIC is decidedly one of the most pleasant and agreeable remedies ever offered to the public. Its taste is exquisite. It is a pleasure to take it, while its life-giving, exhilarating, and medicinal qualities have caused it to be known as the greatest of all tonics.

DEBILITY.

There is no medicine equal to Hoofland's German Bitters or Tonic in cases of Debility. They impart a tone and vigor to the whole system, strengthen the appetite, cause an enjoyment of the food, enable the stomach to digest it, purify the blood, give a good, sound, healthy complexion, eradicate the yellow tinge from the eye, impart a bloom to the cheeks, and change the patient from a short-breathed, emaciated, weak, and nervous invalid, to a full-faced, stout, and vigorous person.

Weak and Delicate Children are made strong by using the Bitters or Tonic. In fact, they are Family Medicines. They can be administered with perfect safety to a child three months old, the most delicate female, or a man of ninety.

These remedies are the best

Blood Purifiers

ever known and will cure all diseases resulting from bad blood. Keep your blood pure; keep your Liver in order, keep your digestive organs in a sound, healthy condition, by the use of these remedies, and no diseases will ever assail you. The best men in the country recommend them. If years of honest reputation go for anything, you must try these preparations.

FROM HON. GEO. W. WOODWARD,

Chief Justice of the Supreme Court of Pennsylvania.

PHILADELPHIA, March 16, 1867.

I find that "Hoofland's German Bitters" is not an intoxicating beverage, but is a good tonic, useful in disorders of the digestive organs, and of great benefit in cases of debility and want of nervous action in the system.

Yours Truly,
GEO. W. WOODWARD.

FROM HON. JAMES TAOMPSON.

Judge of the Supreme Court of Pennsylvania.

PHILADELPHIA, April 28, 1866.

I consider "Hoofland's German Bitters" a valuable medicine in case of attacks of Indigestion or Dyspepsia. I can certify this from my experience of it.

Yours, with respect,
JAMES THOMPSON.

FROM REV. JOSEPH H. KENNARD, D. D.,

Pastor of the Tenth Baptist Church, Philadelphia.

DR. JACKSON—DEAR SIR:—I have been frequently requested to connect my name with recommendations of different kinds of medicines, but regarding the practice as out of my appropriate sphere, I have in all cases declined; but with a clear proof in various instances, and particularly in my own family, of the usefulness of Dr. Hoofland's German Bitters, I depart for once from my usual course, to express my full conviction that for general debility of the system, and especially for Liver Complaint, it is a safe and valuable preparation. In some cases it may fail; but usually, I doubt not, it will be very beneficial to those who suffer from the above causes. Yours, very respectfully,

J. H. KENNARD,
Eighth, below Coates Street.

CAUTION.

Hoofland's German Remedies are counterfeited. The Genuine have the signature of C. M. JACKSON on the front of the outside wrapper of each bottle, and the name of the article blown in each bottle. All others are counterfeit.

Price of the Bitters, $1 per bottle; Or, a half dozen for $5.

Price of the Tonic, $1 50 per bottle; Or, a half dozen for $7 50.

The tonic is put up in quart bottles.

Recollect that it is Dr. Hoofland's German Remedies that are so universally used and so highly recommended; and do not allow the Druggist to induce you to take anything else that he may say is just as good, because he makes a larger profit on it. These Remedies will be sent by express to any locality upon application to the

A CALIFORNIA HEIRESS—HOW SHE ASTONISHES THE WORLD.

Mrs. Ellet, in her recent book on "Famous American Women," makes mention of a California lady remarkable for her ability to entertain twenty gentlemen at once by her vivacious conversational powers. If this were the only or chiefly remarkable thing about Miss Hitchcock, she would be a far less remarkable personage than she is. But she is a public character—an actress requiring a far broader stage and larger house than other actresses of the time.

She is an only daughter, and only child, I believe, of a wealthy and most respectable family, her father, Dr. Hitchcock, having come to this coast as an army surgeon during the Mexican war. He is now a retired physician, and among the most substantial and worthy of San Franciscoans. His accomplished daughter has long been one of the belles of this city, without whom no special gathering of the ton was complete if she was in the country.

When a child she was rescued from a burning building by some some members of the Knickerbocker Engine Company, No. 5, since which time she has never forgotten them—wearing conspicuously at all times, and in all places, a neat gold "5" upon her dress, and at times making the Company of which she is a duly elected member costly presents, ranging from the cherished "5" to the gold mounted fire horn. She is eccentric to an extent that would shock our New England notions of propriety, showing her eccentricity now by presenting the "5's" a barrel of brandy, now by staking a thousand on a favorite horse at the races, again by riding on the cow-catcher the entire length of the Napa Valley railroad, to which ride she challenged an engineer, and still again by some of the noblest deeds of philanthropy and charity.

She has upwards of fifty thousand dollars in her own right, and of course is expected to inherit the hundreds of thousands of her father's estate. From her own purse she supplies the wants of many needy objects of charity, being generous in the extreme and of noble impulses. She vibrates between San Francisco and Paris, taking New York and London on her way, and astonishing the natives of each of these quiet (?) intermediate cities by what she does and what she does not do.

She defies all rules and conventionalities of society, dresses and acts as she pleases everywhere, selects the company from all classes at will, and yet commands the confidence and good will of all. She is conspicuous at the grand ball of the Empress at the Tuileries, attends annually the Derby in England, where, it is said, she amuses herself by winning or losing a few hundred pounds a day at the hands of the young sprigs of nobility.

A few days since she started in company with her parents overland for New York, and thence to Paris. Two days after her marriage notice appeared as evidence of the last of her eccentricities, she in a quiet way, with the personal knowledge of but two human beings beside herself and the fortunate groom, having suddenly experimented in the *role* of bride. Another admirer was with her all the afternoon of that day, until 6 P. M., when she went, as he supposed, to dinner. At 8 P. M., he met her again by appointment, and went with her to the theatre, after which he accompanied her and the family as far as Sacramento, on her overland journey, quite ignorant of the fact that from 8 P. M. he had been in company with Mrs. Howard Coit instead of Miss Hitchcock. This is the same youth whom she dared to drive down an embankment at the Cliff House road a few years ago, which she did at the small cost of $1,200.

Her husband is left behind, she not having seen him, it is said, since they left St. Jame's Free Church. Doubtless, ere this she has informed her loving pa and dearest ma of her late romantic experiment, and is now enjoying some other innocent amusement. But while this heroine is thus eccentric and romantic in her composition, and thus reckless in her demeanor, as before remarked, there are in her character many of the noblest traits possessed by any. She speaks evil of no one, but has a kind word and a warm heart for all.—*Providence Journal.*

WHEN Judge Sharswood rendered a decision in the Borie vs. Trote case, to the effect that coin contracts were valid, there was a tremendous howl from Radical journals. Now that the Supreme Court of the United States has confirmed the views of this distinguished Judge these same journals accept it as sound law, and see no lurking treason in the decision. Thus does time vindicate, one after another, the great principles laid down by the Democracy. The time is coming when the people will confess the superiority and wisdom of Democratic statesmen, and entrust power to their hands.

THE "man and brother" is to be permitted a place in the Inauguration Ball, if he so desires—the board of managers not having issued any order to the contrary. There will, therefore, be a genuine mingling of "black spirits and white, blue spirits and gray," and Radical love for the colored man and colored woman will have another single opportunity of manifesting itself.

CONGRESS having frittered away the big end of the session without having accomplished any important legislation, has now resolved to hold night sessions. With night sessions, generally, came all sorts of bad legislation. We may therefore anticipate that during the next few working days a vast amount of jobbing will be effected, for which the people will, of course, have to pay.

THE BURDELL MYSTERY SOLVED.

[From the New York *World* of Wednesday.]

The *World* lays before its readers this morning a solution of one of the mysterious tragedies of modern times. The murder of Dr. Burdell is discovered, according to his circumstantial confession and all the probabilities of the case, to have been the same Charles Jefferds, who afterwards killed John Walton and John Matthews, and who was himself murdered by a fellow-convict at Auburn about a year ago.

Jefferd's declaration is all the more convincing in that it does not release Mrs. Cunningham from the charge of complicity with his crime. He, too, was a friend of that malign woman, between whom and his mother, Mrs. Walton, there appears to have been a close intimacy. He boasted of the same illicit favors from Mrs. Cunningham which were enjoyed by her boarder, John J. Eckel, and claims to have been, instead of Eckel, the instrument of her revenge. He alleges that he was at Dr. Burdell's house, No. 31 Bond street, on the the evening of the assassination; that he was seated in the parlor and playing on the banjoe for the amusement of the Cunningham girls when Dr. Burdell entered the house and met Mrs. Cunningham, with whom he had a violent quarrel. The Doctor then proceeded to his room on the third story, and Mrs. Cunningham to hers on the second floor. Jefferds, to whom the dispute had been audible, stole out of the parlor, went to Mrs. Cunningham, and, after hearing her account of what had occurred, volunteered to "go up stairs and do for the old rascal," meaning Dr. Burdell. The woman who cordially hated Dr. Burdell and hoped to inherit his possessions, encouraged the young desperado's sympathetic rage.

She informed him of the position of the Doctor's room; he drew a slender two edged dagger which he habitually carried, and started on his cowardly errand. The circumstantial account which he gives of what transpired, from the moment when he glided into Dr. Burdell's apartment and aimed the first blow at his heart to the moment when he "reached under" and "fetched" his victim by a final stab in the kidneys, has a tone of convincing verity. "At one time," says Jefferds, "I thought he'd be too many for me; but the punch in the ribs fetched him. It was our fighting about the room that made the blood fly so all about on the walls. The old fellow was stronger than I gave him credit for, and we had a mighty tough tussle of it; but you see I had the knife, and I kept all the time jabbing him with that, and he bled a great deal, and that weakened him I suppose," which is extremely probable. The assassin's description of the whole struggle tallies with the appearance of the room and of the wounds found on the body of Dr. Burdell after the murder; while the facts of Jefferd's intimacy with Mrs. Cunningham and his character as a reckless bravo help to corroborate his statements. It is said of him that "he habitually went armed, and on the slightest provocation would shoot or cut whoever chanced to provoke his wrath." He declared on one occasion that "he didn't think so much of killing a man; he would put any man out of his misery for five hundred dollars if he was short, *and wouldn't get caught at it ether.*

COLONIZING THE PLUNDERERS.—The project of converting Alaska into a penal colony, has lately been revived by the New York Sun, and Congress is called upon to pass a law to put Alaska to this use, and provide that every State in the Union may sentence all offenders above a certain grade, males and females—all vagrants who have no visible means of employment—to be transported thither, such transportation to be made at certain specified periods every year, in government vessels, at so much a head to be paid by the State sending the convicts. In this manner, it is urged, the community would get rid of its robbers, burglars, thieves, incendiaries, and stout, ablebodied, lazy vagrants, and beggars, both domestic and imported.—Now, while this penal colony business is rather a relic of absolutism than anything else, and scarcely suited to the age, in a republic especially, we think if it is to be resorted to, that the best plan would be to send the members of the various rings now engaged in plundering the government to this American Botany Bay. If the Secretary of State had this use of Alaska in his mind when he purchased it, it was a sagacious act. There being nothing there to steal, there would be some chance of their becoming honest men, or at any rate, by intermarrying with the savages, their descedants might be an improvement upon the orlginal stock. There are processes by which some of the foulest substances may be manufactured into agreeable perfumes. The felons transported from England to the British colonies have been improved in morals and manners by their exile, and become, in many cases, the ancestors of a respectable progeny.—It is therefore within the bounds of possibility that even the corruption of our own public plunderers might be arrested by enclosing them in Alaska ice.

"If I ever reach Heaven," said Dr, Watts, I expect to find three wonders there:—1st, The presence of some that I had not thought to see there, 2d. The abscence of some whom I hae expected to meet there. 3d. The greatest wonder of all will be to find myself there.

A lawyer on his death bed willed all his property to a lunatic asylum, stating as his reasons for so doing, that he wished his property to return to the liberal class of people that had patronized him.

THE following confession of a dying man, who was much respected among his people, we clip from the Columbia *Spy*:

A Rev. Mr. Sweeny, of this place, (colored,) died on last Friday. He had been regarded as a good man, and both white and colored entertained for him sentiments of respect and good will. On taking sick in December, he professed his entire readiness to die; but as he approached his hour, he manifested a desire to reveal something that rested on his mind, and the Minister, Rev. Mr. Cooper, in charge of the congregation was sent for. On approaching the bed, the dying man remarked, "If I die now I am lost." "What!" says the Minister—"Did you not tell me that you were ready to die?" "Yes, but it was not time. I have been acting the hypocrite all my life. I never knew what religion was. I have never done any good. I have been a deceiver, and if I die now I am lost." The mercy of God was held up before him, and he was urged to look to Christ, but with a strange and awful indifference he went down to death unmoved, unclaimed, and powerless for prayer to the very last. His only regret was, that he had "tried to mock God and deceive others with a false profession." He, with all his professions, had brought "three former wives to the grave by brutal violence, and one of his children of his first wife, and laid his present wife, on a bed of pain for days." In the retrospect of his life, he sadly remarked: "I have done everything that is bad, I have taken away what no man can give," (alluding to his inhumanity to his wives.) What a warning! "Don't trifle with God!" "God is not mocked."

THE VAGABOND-SAGE.—An old man of very active physiognomy, answering to the name of Jacob Wilmot, was brought before the police court. His clothes looked as though they might have been bought second handed in his youthful prime, for they had suffered more from the rubs of the world than the proprietor himself.

"What business?"

"None; I'm a traveler."

"A vagabond perhaps?"

"You are not far wrong. Travelers and vagabonds are about the same thing. The difference is that the latter travel without money and the former without brains."

"Where have you traveled?"

"All over the continent."

"For what purpose?"

"Observation."

"What have you observed?"

"A little to commend, much to cencure, and a great deal to laught at."

"Humph! what did you commend?"

"A handsome woman who will stay at home; an eloquent preacher that will preach short sermons; a good writer that will not write too much; and a fool that has sense enough to hold his tongue."

"What did you censure?"

"A man that marries a girl for her fine clothing; a youth who studies medicine while he has the use of his hands; and the people who will elect a drunkard to office."

"What did you laugh at?"

"I laughed at a man who expects his position to command that respect which his personal qualities do not merit."

He was dismissed.

Speaking of the similarity of names of some of the New England towns, Mark Twain tells the following story of a stranger who was coming up the Connecticut river, and was trying his best to sleep; and every now and then the boat would stop and a man would thrust his head into the room. First he sung out, "Haddam!" and then "East Haddam!" and then "Haddam Neck!" and then "Great Haddam!" "Little Haddam!" "Old Haddam!" "New Haddam!" "Irish Haddam!" "Dutch Haddam!" "Haddam-Haddam!" and then the stranger jumped out of bed, all excited, and says: "I'm a Methodist preacher, full of grace, and forty years in service without guile! I'm a meek and lowly Christian but d—n these Haddams; I wish the devil had e'm, I say!"

BIG BILLIARDS.—The Radicals at Washington are matched at last. They have pocketed everything else, but they can't pocket Grant. He plays safety so well that they can neither draw him, nor hole him with a straight hazard. Cornering and jawing him don't do a bit of good. They always slip up on their English, and leave him a break to play at; so that with fancy shots all round the table, and forces, he keeps the balls all in a heap. They haven't got the right cue, and they can't fiddle worth a cent. Now's the time to bet on the big billiard match at Washington.

PARSON BROWNLOW AND GREELEY.—The Tribune is down on Parson Brownlow—shakes its fist at him; makes faces at him—for making a proslavery speech nine years ago. Surely the mills of God do slowly grind.

THE MATRIMONIAL FRUIT BASKET.—Says Kate to her new husband, "John what rock does true love build upon?" Quoth John, and grinning from ear to ear, "The rock of yonder cradle, dear."

The champion eater of Michigan won the title of eating forty-eight "slap-jacks" for breakfast to his antagonist's forty-seven.

"John did you ever bet on a horse race?" "No, but I have seen my sister Bet on an old mare!"

"Nat, what are you leaning on that empty cask for?" "I'm morning over departed spirits."

Never interfere in other people's concerns.

HOUSE AND FARM.

Potatoes—Early Rose to the Rear.—The potato fever does not abate in the least. But the originator of the Early Rose has brought out a new variety called the "No. 4," which promises to eclipse all others. Sixteen potatoes of of this variety have sold for $825, 12 pounds for $615, one potato brought $50, and one was traded for a cow, worth $60. A man in Hubbardtown, Vermont, who bought one eye of a "No. 4" potato raised from it, this season, potatoes that has sold for $750, and has three left. Eight were bought by one man for $400. Most prudent people will refuse to be humbugged into investing very considerably in any of these new varieties of potatoes, until the scale of prices is more in accord with the instrinsic value of the esculent—until they may be purchased by the bushel and not by the pound.

Fruit Growing.—It is said that many farmers in different sections of the country avoid planting orchards because they fear there will eventually be more fruit raised than a market can under most favorable circumstances, be found for. These farmers should take a view of the dried fruit trade, or of the canned fruit traffic, and also make themselves acquainted with the wonderful consumption of fresh fruit which prevails in all directions. Thousands of dollars' worth of fruit is now annually sent afar off, in good condition, to places which not long ago never received any, all owing to the improved methods of packing, preserving and transportation. There can never be too much fruit raised.

White Wash.—As the season is near at hand for white-washing buildings, fences, &c., we take this opportunity to to inform our readers that they can make a superior white wash paint, by taking two quarts of skimed milk, eight ounces of freshly slaked lime, six ounces of linseed oil, two ounces of white burgundy pitch, and three pounds of Spanish white. The lime must be slaked in water exposed to the air, mixed in about one-fourth the milk. The oil (in which the pitch has previously dissolved) must be added a little at a time. Then add the rest of the milk, and afterwards the spanish white. Color it to suit, (if you do not prefer a white paint) with Spanish brown to make a pink; with spanish brown and finely pulverized clay, to make a stone color; with yellow ochre or chrome, to to make a yellow colox, and so on.

The Canadian Thistle.—Mr. David Newport, of Abington, Pa., writes to *Hearth and Home*: "On a farm which I purchased in Abington, I found two considerable patches of Canada thistle, which I have destroyed in two seasons by the application of a small quatity of coal oil. I found it better to cut each plant close to the ground with a sharp hoe or knife, and apply the coal oil immediately to the fresh wound. A small quantity seems to penetrate the plant, even to its most distant roots. Farmers cannot be too careful to note the first encroachment of this pest, for itis only then that it can be readily destroyed, but it will be found by experiment that the means above indicated, if perseveringly used, will prove thoroughly efficacious.

Balloons.—Take one pint of milk, one pint of flour, three eggs; separate the eggs, beat the yolks until light and mix with the milk; stir in the flour gradually, add one salt-spoon of salt, beat it well, then whisk the whites until stiff and dry, and *stir* through lightly half at a time. Butter small cups, fill them half full of the mixture, and bake in quick oven. When done turn them out of the cups, place them on a heated dish, and send to table hot.—Eat with wine or nun's butter.

Indian Bread.—Take seven heaping tablespoonsful of Indian meal, a little salt, a piece of lard the size of an egg; well scald the meal, but not too thin, with boiling water; two eggs well beaten, three-fourths of a cup of rice, well boiled, put with the meal; thin it to a thick batter with milk, it takes about a teacup of milk, one teaspoonful of cream of tarter and half a teaspoonful of soda. Bake an hour.

Omelets.—Take a slice of baker's bread an inch thick, cut off the crust, pour a pint of boiling milk upon it; season with pepper and salt to your taste, beat it up, and when cold put to it five eggs. Beat the yokes very light, and add them to the bread and milk, then add the whites, well beaten.—This makes two omelets.

Cider may be preserved sweet for years, by putting it up in air-tight cans after manner of preserving fruit. The cider should be first settled and racked off from the dregs, but fermentation should not be allowed to commence before canning.

Adhesive Plaster.—Take of common, orlithrage plaster, five parts; with resin, one part. Melt together, and thinly spread the liquid compound on strips of linen, by means of a spatula or table knife. This plaster is very adhesive, and is used for keeping on other dressing.

Court Plaster.—Take half-a-dozen pig's feet well cleaned for cooking, and boil to a jelly of say about half a pint or less: then spread with a brush on any waste scraps of silk. It will be found equal to any adhesive plaster. Any fatty substance in the boiling of the feet raises to the surface, and when cold can be easily removed.

Wheat, bran, oatmeal, scraps of meat, and cheese rinds should be fed to hens at this time of the year, because they contain albumen, of which there is much in an egg. Chopped vegetables will make them healthy; corn meal is is more useful in fattening poultry.

In estimating hay by measurement allow 450 cubic feet for a ton in the upper half of the mow, and 400 feet in the lower half.

REVISION OF THE DEMOCRATIC RULES OF BEDFORD COUNTY.

The "Crawford County System" adopted.

The Democratic County Convention of 1868 passed the following resolution:

Resolved, That a committee of seven be appointed to revise the rules for the government of the Democratic party of Bedford county, such committee to make report to the County Committee, prior to the issuing of the call for the next County Convention, and the action of the County Committee upon such report to be final.

In accordance with the resolution, John C. Black, Esq., and Capt. P. G. Morgart, of Bloody Run, Hon. J. G. Hartley, of Snake Spring, Hon. A. J. Snively, of Schellsburg, G. W. Bowser and Andrew Crisman, Esq., of Napier, and George Elder, Esq., of Harrison, were appointed a committee on revision of rules to report to the County Committee.

This Committee met February 10, 1869, and agreed upon a report which was submitted to the County Committee, at a meeting called for that purpose, on Thursday, February 25, 1869. The report, after being amended as to the time of holding the nominating elections, fixing the third Friday in March, after the present year, was unanimously adopted.

The following are the rules of the Party as amended and unanimously agreed to:

Resolved, That hereafter, until changed by a Convention of Delegates elected by the Democratic voters of the county, called by the County Committee for that purpose, the nominations of the Democratic Party shall be made by ballot, according to what is popularly known as the "Crawford County System," that is to say, On the last Saturday of May of the present year and on the third Friday of March, each and every year thereafter, the Democratic voters of the several election districts of the county, shall assemble at the polling-places in such districts, or at such places as may be appointed by the Chairman of the County Committee, and vote by ballot for the choice of candidates for the several offices to be filled at the next ensuing election, and at the first election under this system, the Vigilance Committees of the several election districts now existing shall receive the tickets, count them and make out a fair, correct and full return of all the votes cast for the several persons voted for, which return shall be brought to the Chairman of the County Committee, under seal, by one of the said Vigilance Committee, on the Tuesday following the said election, and the persons making the returns shall assemble in the Court House, in Bedford, on the said Tuesday next after the said election, and the Convention of such Return Judges shall be opened by the Chairman of the County Committee, after which the Convention shall be organized by the appointment of a President and two secretaries, selected by a *viva voce* vote from among the number of the Return Judges, when the Chairman of the County Committee shall lay before the Convention the returns of the election, which shall then be opened by the President and the votes of the several districts for the several candidates be footed up by the Secretaries. The persons having received the highest number of votes for the respective offices, shall then be declared by the President of the Convention to be the nominees of the Democratic Party of Bedford County, which nominations shall be binding upon every member of the party to all intents and purposes whatever.—And at the first election under this system, and at every subsequent election thereunder, there shall be chosen by the Democratic voters of the several election districts, two inspectors and one Judge of Election, who shall take the place of the Vigilance Committees now existing and shall hold all elections for the making of nominations after the present year. The Judges of Election shall take the returns of their respective districts to Bedford and represent their respective districts in the Convention of Return Judges, as is above specified in regard to the duties of members of the present Vigilance Committee who are to act as Judges during the current year. The returns of elections shall in all cases be certified over the signatures of at least two of the officers of the election. The name of each voter at such elections shall be carefully written down and numbered by one of the officers of election, and such lists of voters shall be returned to the Chairman of the County Committee by the several Return Judges. It shall be the duty of the Convention of Return Juges to appoint a county Committee to serve for one year from the date of its appointment, the Committee to consist of one person from each election district, and appoint, by *viva voce* vote, a Chairman of such Committee. It shall, also, be the duty of the Convention of Return Judges to appoint, by a like vote, all conferees to meet conferees from other counties, to make district nominations, but the County Committee, after the present year, shall meet at the call of its chairman and elect by a *viva voce* vote, all delegates to State Conventions. In case of a tie vote for any number of candidates resulting in no choice at the election, the Convention of Return Judges shall nominate from among the number of candidates running a tie, by a *viva voce* vote, the person receiving a majority of all the votes cast in the Convention to be the nominee. All candidates for nomination shall pledge themselves to support the nominees thus made, and the only test to be applied to any person who desires to vote at the elections herein provided for, shall be, that the person offering to vote is entitled to a vote at the election for Representatives in the state Legislature and pledges himself to vote the whole Democratic ticket at the next General Election.

J. W. DICKERSON,
Ch'n Dem. Co. Com.

THE latest report concerning Grant's cabinet is that the War Department is the one allotted to Pennsylvania, and in consequence the curiosity regarding the coming man from that State will not be gratified until after Gen. Schofield's retirement.

WHITE men, bear in mind that the Radical leaders are not only trying to make the negro a VOTER, but an OFFICE-HOLDER also, in all the States.

THE CONSTITUTIONAL AMENDMENT.

After an unusual display of hesitation and reluctance on the part of both Houses of Congress, the constitutional amendment is now passed finally.—The text of the bill is as follows:

Be it resolved, &c., Two-thirds of both Houses concurring, that the following amendment to the Constitution of the United States be submitted to the legislatures of the several States, and when ratified by three-fourths thereof, it shall be a part of said Constitution.

Art. 15.—The right of the citizens of the United States to vote shall not be denied or abridged by the United States or by any State on account of race or color, or previous condition of servitude.

Sec. 2. The Congress shall have power to enforce this article by appropriate legislation.

It will now go out to the legislatures of all the states for ratification. The approval of three-fourths of them is requisite. This will require the radicals to control twenty-eight State legislatures. They have at this time not more than twenty six in their power, and of these, there are several which cannot now be fully relied on to adopt the amendment. The radicals in Nevada will not ratify unless they have the assurance that Congress shall so exercise the power conceded in the second section, as to exclude the Chinese from suffrage.

And now this measure which yields to the general government complete and exclusive control over the entire question of the qualification of voters, comes before the Pennsylvania legislature for ratification. It robs, in one sweeping line, every state of the Union of the dearest privilege which it can own. Without this power over the question of suffrage, the States will cease to exist as members of the American Union, and become mere provinces subject to the authority of the government at Washington. A national registry law will follow rapidly on the heels of this ratification, and swarms of federal officers will take the places of the local assessors, just as the government collectors and assessors of revenue usurp the places of the old State officers. This amendment will not leave to the State legislatures the poor privilege of fixing the times and places of holding elections, Congress exercising complete power over every subject pertaining thereto. It is needless to argue that this amendment will subject the people of Pennsylvania to the power of strangers in the management of their domestic affairs. The carpet-bag governments of Florida and Arkansas, such rotten borough States as Kansas, Minnesota, and Nevada, and breeches pocket States like Vermont, New Hampshire and Rhode Island, are relied on by the radicals to impose this measure of iniquity upon the great States of New York, Pennsylvania and Ohio, possessing ten times the population. When the act of despotism shall be accomplished, the representatives in Congress from these petty States will have it in their power to prescribe the very conditions of existence to the great States.

In Pennsylvania, it is by no means certain that this amendment will be adopted. It will have to be done now, for no succeeding legislature will be entrusted by the people with the power to transfer their rights to the general government. If the present legislature ratify it, the act will be as fraudful an exercise of power as radicalism has yet ventured on. Its members were not chosen with reference to the question of this important amendment. Many of them owe their seats to sturdy denials that the subject of suffrage would be agitated. If they shall dare now to support this amendment, they will stand self-convicted of treason to their constituents, and of the violation of the most solemn duties they owe as representatives. Every member of the legislature who shall vote to ratify this admendment, will vote to invite the people of the rest of the States to meddle in the most delicate and important concerns of Pennsylvania. He will solemnly vote to deprive her of the rights, power and dignity which she has always possesssed in the government.—By his vote he deliberately proposes to subvert the present form of government by taking from the States a high prerogative which they were careful to retain in the Constitution. If the proposition now made had been submitted to the Convention of 1787, it would have been impossible to form a Union of the States. Every citizen who has studied the early history of the government knows this. The man who shall vote now to ratify this amendment, proposes to destroy the government as it was framed by the patriotic fathers of the republic.—The people of the great Commonwealth of Pennsylvania await with thrilling interest the result in the Pennsylvania legislature.

IT is ascertained that it is not necessary for Grant to resign his position as general before becoming President.—The generalship becomes vacant immediately upon his being sworn in as President, the latter being regarded merely as a military promotion.

The jealousies of the Radical leaders portend the certain disruption of their party. Democrats, wait a little longer.

PHILADELPHIA.

[Correspondence to the Bedford Gazette.]

THE VELOCIPEDE

mania has not yet broken out. We mean that it is still confined to back yards and alleys, where, no doubt, many ludicrous scenes are enacted. Don't you know that we have a training school here for velocipedists? and we opine that by summer you will see Bycycles issue forth in any number, and then you will see what you will see. Only think of a witch on a broomstick and then you will have an idea of a bycycle; but how to preserve the equilibrium is about as easy as to propel through the air. And when they do come, what will we do? Won't there be a commotion among goat carts and baby wagons, and those timid pedestrians who have such huge extremities attached to very thin abdominal supporters? We anticipate already an increased police force for the purpose of picking up fragments of things smashed generally. It is a fortunate thing that the ladies are out of this arrangement, for they do some effectual smashing in another direction to which we make no particular objections. We believe they can do this much better than some other things of which

STUMPING

is not one. Some time ago we dropped in on an Anti-Slavery meeting in the Assembly Building. It was a motley crowd, from the deepest ebony, through all the various shades, up. The dress varied from the old brown scoop bonnet to the latest frizzling. Lucretia Mott was speaking. She is an interesting little lady, but as a speaker she is vapid. She harped on the same old string all through. Then followed an old lady in cap and spectacles who, in a very sharp and piercing tone, said that Mrs. Mott and Wendell Phillips both knew that the Anti-Slavery Society originated in a Woman's Rights' movement, and they should not be afraid to maintain it. We left before Philips concluded, but do not suppose he was afraid of that or any other heresy. In all candor, the next place to the Fish market for woman is the stump; she divests herself thereby of all those refining graces which make her, in our eyes, one of "God's created best."

THE 22ND

was observed very generally. Banks, offices and public works were closed, flags were flung to the breeze, and various societies with bands of music paraded the streets. A salute of thirty-seven guns was fired at Broad and Market at sunrise. The day was mellow and hazy, and the fashionable streets crowded with promenaders. It is a significant fact that the birth day of Lincoln was passed over with but a single demonstration; while that of Washington still stirs the patriotic blood of the nation. Time proves all things.

At night Senater Hendricks addressed a full house at the Academy of Music in a masterly oration. His subject was, "George Washington"—not *General* Washington. In our day if you take away that prefix, there would be very little left.

MURDOCH

gave readings at Morton Hall last night. We confess to the great anxiety we had to hear him; and altho' we put our expectation very high, he went over it as much higher as the moon is above a church spire. The programme was varied from "grave to gay, from lively to severe." His rendering of "The Vagabonds," by Trowbridge, was the most exquisite piece of humor and pathos, and drew tears from every eye. They tell me he has lost none of his original vigor and fire; and we believe, off the stage, he has no peer in the land. May his star never decline!

SNOWING.

All morning it has been coming thick and fast. The lindens and pines are bending under the fleecy load, and the birds are hopping in wonder under the piazza. We light up our "Globe Smoker," and intend to settle down for a whole day in the house.

Yours, &c., LINDEN.

Congress has appropriated $30,000 to relieve the "poor"—negroes—of Washington. Dirty, lousy, idle and starving, they crowd the galleries of the capitol from day to day, listening to the harrangues of their white allies. They ought to be paid $30,000 for listening to such stuff.

THE present Congress has appropriated $1,400 for furnishing itself with soap and combs at the expense of the people. The appropriation seems to concede that they are a rather dirty and lousy set, and if fourteen hundred dollars would keep them clean, it is cheap.

HERE IS SOMETHING to charm, amuse, and instruct the boys and girls—a new number of an old and entertaining friend, DEMOREST'S YOUNG AMERICA for march, 1869. Pictures, stories, puzzles, philosophy, games, rebuses, and countless other subjects are presented in the most fascinating way to interest the young folks, who, after once peeping into this marvelously good book, we are certain, will not wish to lay it down until every word has been read, every puzzle tried, and every picture examined. Hurrah for Young America! $1.50 per year; publication office, 838 Broadway, New York.

THE LADY'S FRIEND FOR MARCH.—The March number of this "Queen of the Monthlies," opens with a fine steel engraving called "In the Firelight"—where fireside dreams are taking visible but etherial shapes. This is followed by the usual handsome colored steel fashion plate, and by an amusing engraving of "Half an Hour too Early" (at the party). Then we have the usual large number of engravings devoted to the fashions, needle work, &c. The literary contents are, as usual, of the most entertaining character. Published by Deacon & Peterson, 319 Walnut street, Philadelphia, at $2.50 a year.

CONGRESSIONAL.

WASHINGTON, Feb. 23.

The Senate by a vote of 36 to 14 refused to take up the tenure-of-office bill and then agreed to the House proposition for a conference committee on the joint resolution relating to the constitutional amendment. The bill to incorporate the National Junction railway, the bill to amend the judicial system of the United States, and the bill to amend the civil rights act, were passed.

The House by a vote of 115 to 56, passed the copper tariff bill over the President's veto. Majority and minority reports were made by the select committee to whom was referred the subject of the alleged New York election frauds. A bill reported by the majority to prevent future frauds was passed.

WASHINGTON, Feb. 24.

The Senate, by a vote of 38 to 12, passed over the President's veto the bill in relation to the tariff on copper. The House having previously passed it over the veto, it is now a law. A joint resolution was adopted authorizing the committee on printing to contract with the proprietors of the Washington Globe for printing the debates of Congress for the next two years, and appropriating so much of the sum of $350,000 as may be necessary to carry out the contract. The army appropriation bill was then taken up and various amendments agreed to, among them one to reduce the army to thirty-five regiments of infantry, and the number of brigadier generals to eight.

In the House, Mr. Schenck's bill to strengthen the public credit, &c., was passed by a vote of 119 to 61. It pledges the faith of the United States to pay in coin or its equivalent all the interest-bearing obligations, and provides that any contract hereafter made specifically payable in coin shall be legal and valid, and may be enforced according to its terms. The House has refused to second a motion of Mr. Coburn, of Indiana, to ask a committee of conference on the disagreeing votes of the two houses on the bill amending the national currency act.

The two Houses, at the sessions last night, passed a number of bills mostly of an unimportant character.

WASHINGTON, Feb. 25.

The Senate passed the House bill to exempt the manufacturers of naval machinery from internal taxation.—The consideration of the army appropriation bill occupied most of the remaining part of the day. Nothing of general interest was transacted at the evening session.

In the House a bill to establish a uniform system of nickel copper pieces of five cents and under was passed.—Mr. Boutwell submitted the report of the conference committee on the suffrage amendment to the constitution. The report declares that right to vote shall not be denied by reason of race, color or previous condition of slavery. The report was agreed to by the necessary two-thirds. The report of the conference committee on the consular and diplomatic appropriation bill was called up, and after dabate disagreed to, and a new conference committee asked for. The legislative appropriation bill was next taken up and amendments adopted increasing the pay of male and female clerks, and other government employees in Washington.

At the evening session the annual post office appropriation bill was passed.

THE CUBA TROUBLES.—The rebellion in Cuba does not seem to be prospering. The great military and naval resources at General Dulce's command, and the skill of his management, are apparently beginning to get the better of the rebellion. There must be now, including volunteers, an army of more than sixty thousand men under the command of the Captain General, though it must be admitted that the volunteers give him almost as much trouble as the enemy. The ferocity of these truly loyal men, everywhere except in the field, is almost irrepressible by the combined military power and characteristic tact of General Dulce. These holiday soldiers are howling for blood, while the real soldier, the man whose profession is war, has to muzzle their forty jaws and inculcate prudence, self-restraint, deliberation and fraternal feeling. Cawardice and cruelty go hand-in-hand, and, except for garrison duty, we apprehend that General Ducle would find his volunteers rather an incumbrance than an aid in the present contest. It is to be hoped that he will persist in his announced purpose to effect the pacification of the island within the limits of the law.

It will be wise in him to extend the utmost clemency to the rebels, considering the real grievances under which Cuba has suffered, the danger of rendering permanently disaffected and vindictive an element of the population which has shown itself possessed of so much strength as the rebellion has developed, and also by the reflection that the government against which Cuba has revolted is itself a rebellion, and a rebellion mostly carried on by the military class to which Gen. Dulce belongs, and which, therefore, ought to have some toleration for those who adopt that mode of redressing grievances. Gen. Dulce, it appears, has declared that he counts on the sympathy and moral aid of the United States, and Madrid cable dispatches of February 22d represent the press of Spain as urging upon the provisional government the necessity of preserving the friendship of this country. The most efficient means of effecting that object is by adopting towards the Cubans a policy of conciliation and clemency, for the sympathies of our people are universally with the insurgents.—*Balt. THE POLITICIANS AND GENERAL GRANT'S CABINET.

Says the Baltimore *Sun*, since the announcements made on Wednesday last, that General Grant had determined to select one member of his cabinet from Pennsylvania, and had let fall such words also as led to suppositions in regard to the probable man, his previous apprehensions have been well confirmed that if he should beforehand indicate any intended member of his cabinet, he would be beset by politicians in the interest of others whom they desire in preference to those of his own choice. Several accounts have been given of the interviews of Pennsylvania republican partisans with the President elect, all agreeing mainly as to the character of those interviews. Of what occurred between Colonel McClure, chairman of the Pennsylvania republican State committee, and General Grant on the day following the announcement, when the former undertook to urge Governor Curtain as the man most fit to be Pennsylvania's representative, we have apparently pretty minute statements.—Col. McClure undertook not only to dictate to General Grant who should not be the cabinet member from Pennsylvania, but pointed out how "the good of the party" required a prominent politician to be appointed. The reply of General Grant, as given through a republican source, is worthy to be recorded in letters of gold: "I am not the representative of a political party myself, although a party voted for me." The country may be congratulated upon the expression of such sentiment by the incoming President, and the radicals of the nation ought to feel jubilant and grateful that they have been the honored, though unconscious instrumentality of securing such a blessing to the republic.—It is even possible that in electing General Grant they may have been the means of expiating some of their innumerable political offences, by placing in the executive chair a Paesident who will "let us have peace" sure enough. What a glorious effulgence they will behold on the 4th of March, the setting sun of Andrew Johnson and the rising sun of General Grant raised to the firmament by their own power, and both shining in their eyes. It may be doubted whether they can see as clearly as usual under such circumstances. But, seriously, what right have they, if General Grant should choose to appoint one not prominent in politics to his cabinet, to complain on the ground that he is not an extremist, when that was the very ground on which they nominated General Grant himself? Why did they throw overboard all the "active republicans" at that time, and take General Grant, and then blame General Grant, because he follows their immaculate example?

MR. JACOB SCHEETZ—Sir: I cannot refrain from expressing my entire confidence in the curative powers of your "Celebrated Bitter Cordial." I administered it to my child eighteen months old, for Bowel Complaint; to my neighbors' children for pains in the stomach and other ailment; to my adult friends for Diarrhœa, with astonishing cures. I was dreadfully paralyzed, and for two years suffered severely with Rheumatism. After using all the talked of cures without relief, and becoming satisfied that the kidneys is the centre from which Rheumatism emanates, I made a firm stand against all liquors particularly malt, and used your renowned Herb or Bitter Cordial exclusively; the result is—I have had no Rheumatism during the winter last past, notwithstanding its severity and many changes.

Yours truly,

I want to rouse each sleepy head,
Who stand upon the brink,
Where yawning gulfs disclose the dead,
Who might, but did not, think.

I want to warn the living ones
Who blindly grope along,
Ye fathers, daughters, mothers, sons,
What perils round you throng!

Look out, my reader, are you free,
Or do you wear the mark?
Most all are blind and cannot see,
Yea, groping in the dark.

Catarrh, a demon in the head,
Consumption is its son;
Kills hosts, yea, countless millions, dead,
Perhaps you may be one.

That hacking, hawking, spitting, shows,
Catarrh effects your head.
Matter and slime in throat or nose,
Runs down your throat instead.

Your lungs and liver soon will show,
Consumption has its birth;
Catarrh, its sire, will feed it too,
'Till you return to earth.

If colds affect your head and throat,
ANNIHILATOR buy;
Now don't forget what I have wrote,
Or think this subject dry.

WOLCOTT'S ANNIHILATOR cures
Catarrh—the demon flies;
It saves the *lungs*, good health insures,
And Catarrh quickly dies.

I want to gratify my friends,
Who wish to understand
About PAIN PAINT, its use, its ends,
And why its great demand.

I want to show you, plain as day,
Why PAIN PAINT stops all pain,
That you may never have to say
"I'll not try paint again."

PAIN PAINT will cool but never stain;
Pumps inflammation out;
'Tis harmless on the breast or brain,
A trial stops all doubt.

When inflammation leaves the frame,
All pain will cease at once;
Remove the cause, 'tis all the same;
None doubts unless a dunce.

The pores will ope and drink PAIN PAINT;
Absorbents fill with ease;
Restores the weak, the sick, the faint,
The greatest skeptic please.

Evaporation cools the place
As inflammation flies;
Hot blood at the absorbent's base
Makes PAINT in vapor rise.

'Tis thus PAIN PAINT removes all doubt,
Removes the very cause
By pumping inflammation out;
On this we rest our cause.

Wolcott's Pain Paint is sold at all Drug Stores; also, Wolcott's Annihilator, for the cure of Catarrh and Colds in the head. Sent by express on receipt of the money, at 181 Chatham Square, N. N. R. L. Wolcott, Prop. feb26w

HUNTINGDON AND BROAD TOP R.R.—WINTER ARRANGEMENT.—TIME TABLE.—On and after Sept. 16th, passenger trains will arrive and depart as follows:

Mail Train leaves Mt. Dallas at 1.10 p. m., arrives at Huntingdon at 4.21 p. m.; leaves Huntingdon at 9.05 a. m., and arrives at Mt. Dallas at 12.18 a. m.

Accommodation Train leaves Saxton 7.30 a. m., and arrives at Huntingdon, at 9.20 a.m.; leaves Huntingdon at 4.35 p. m., and arrives at Saxton at 6.27 p. m.

Getting plenty—candidates.

Making an impression—the weather.

Biggest thing of the week—the inauguration of Ulysses.

'Tis not so "sweet to be remembered" that sugar has gone up three cents a pound.

Jacob Reed sold his fine residence on Pitt street to Thomas M. Lynch for $6,500.

Jack Frost has conferred a special favor on pedestrians by drying the mud on our streets.

If you have any desire to stop chewing tobacco, go at once to Heckerman's and get a box of their tobacco cure.

FOR SALE.—The office, residence and good will of the subscriber, in Pleasantville. WM. E. HALL, M. D.

"Velocipede" candy is the latest agony. It must not be supposed, however, that it is worked with the feet.

The loss sustained by Messrs. Hartley & Metzgar, at the recent fire, as adjusted by the insurance companies, was $550.

The great difference between a horse and velocipede has been discovered to be the ease with which the latter lies down.

Farmers should remember that H. Heckerman & Son make and sell the best horse and cattle powders now in use. Store on Juliana street.

Jacob Dean, (colored) who was found guilty of horse stealing at the regular term of court, was granted a new trial, which comes off at April term.

We hear that those engaged in dunning delinquents receive more curses than coin—more maledictions than money.

You can guard against colds and inflammation of the lungs by keeping your mouth closed when you go out—and breathing through your ears—if they are long enough.

A man who lives on Dry Ridge, this county, used, he tells us, a plug of Navy tobacco a week, and after using a box of Heckerman's tobacco cure, now hates the sight or smell—and says that the taste of tobacco makes him sick.

WALL PAPER.—We have a large assortment of wall paper on hand now, which we will sell cheap for cash until after the 1st of April. Now is the time to make bargains. Remember you must call before the 1st of April. 2t INQUIRER BOOK STORE.

AT HOME.—J. H. Longenecker, Esq., our representative at Harrisburg, is home on a visit to his friends. The Legislature has adjourned till the 8th, and most of the members thereof have gone sight seeing at Washington. Mr. Longenecker looks as though legislative labors agreed with him.

DEMOCRATS, ATTENTION!—On Friday, the 19th inst., the borough and township elections take place. The "Republicans" have selected the same day for holding their nominating elections. This was done for the purpose of getting out a large vote, and carrying the township officers in districts where the vote is close. It behooves you, therefore, to turn out in your strength, and spoil this little Radical game. When your enemy seeks to take advantage of you, be ye also ready.

Our local correspondent from St. Clair sends us the following:

Last week William Oster completed a new bridge across Scrub Grass, near St. Clairsville. There are quite a number of difficult fordings in St. Clair and Union townships, where bridges ought to be built, and if the proper efforts are made by the people of that neighborhood, they will soon be supplied with good crossings.

PREMIUMS.—Below we give the amounts paid as premiums, in the counties named, for the killing of dangerous and destructive animals and birds. It will be seen that Huntingdon county takes the lead, while Bedford, to which the Huntingdon county Act was extended a year ago, follows suit. The provisions of the act were not thoroughly understood in all parts of this county; if they had been, our expenses for the destruction of foxes, owls, &c., would have been materially larger. We question the propriety of extending the Huntingdon act to this county, but so long as it stands on the statute book its provisions must be carried out.

ADJOURNED COURT PROCEEDINGS.—The attendance at adjourned court, last week, was slim, although business kept the Judges and Jury together till Saturday. The following cases were tried:—

Joseph Crisman, Guardian, &c., vs Mathias Forney. Ejectment. Jury discharged and Defendant confesses judgment in favor of Plaintiff.

Peter Cramer vs William Karns. Summons case *Sur* Slander. Jury find for Plaintiff, twenty-four dollars damages, and Defendant to pay all costs.

William Kellerman vs Samuel Lehman, *et al.* Replevin. Jury find for Plaintiff, nine dollars.

Richard Langdon vs the Riddlesburg Coal and Iron Co. and Robert Steckman. Replevin. Jury find for Plaintiff, three hundred dollars.

The Tp. of Middle Woodberry vs. E. Longenecker and Jacob S. Bassler. Appeal from Auditor's settlement. The jury being unable to agree were discharged.

INSURANCE.—The annual Statement of the Home Insurance Company of New Haven, represented by J. G. Fisher in Bedford, and vicinity, will be found in another column.

The home is a well managed, first-class Company, with a paid up cash capital of one million, and a surplus of six hundred and twenty-two thousand dollars; having a well earned reputation for promptness and fair-dealing commanding the confidence of property owners. Call on J. G. Fisher and insure in the Home, of New Haven.

The human family is so numerous that a birth and a death occur every moment. Every second a child is born; every second some one dies. The prevalance of sickness in the world may be realized in Dr. J. C. Ayer's Laboratory where medicines are made for all mankind. It would scarcely seem that there are throats enough to swallow the doses he issues daily,—Ayer's Sarsaparilla, Ague Cure, and Cherry Pectoral by the thousand gallons and Ayer's Pills literally by the ton. But they must all be wanted, or he could not make such quantites for so many years.—*Northfield Telegraph.*

THE

AMERICAN SHUTTLE

SEWING MACHINE!

Is retailed at a price within the reach of all. This Machine uses a straight needle, makes the LOCK STITCH (alike on both sides), has a self-adjusting tension, and can do every variety of sewing. It will hem, fell, bind, cord, braid, seam, built, tuck, ruffle, and gather; and will work equally well on silk, linen, woolen, or cotton goods, with silk, linen, or cotton thread.

THE

AMERICAN SHUTTLE SEWING MACHINE

—IS—

Warranted for Five Years!

Our Agents will be supplied with duplicate parts of the Machine, in case of accident. It makes precisely the same stitch made by the Singer, Wheeler & Wilson, Howe, and Florence Machines. It has the Under-feed, like the best of high-priced Machines, and is the only low-priced Shuttle Machine in the market that has this feed. We are enabled to sell a first-class SHUTTLE MACHINE at a very low price, on account of its Simplicity, and consequent low cost of Manufacturing, in comparison with Complicated Machines.

AGENTS.

We wish to arrange with Agents, male or female, to represent the American Shuttle Sewing Machine, in each State, County, and Town in the United States and Ontario. Extra inducements to Experienced Agents. For full particulars, as to Salary or Commission, address

G. V. N. ANDREWS,

N. B.—For the benefit of our Agents we have arranged with parties who have goods suitable for Sewing Machine Agents to sell. We will send BOOK OF SAMPLES and full particulars on receipt of one red stamp. Address G. V. N. ANDREWS, General Agent, Detroit, Mich. nov6y1

THE GREAT

AMERICAN COMBINATION

Button Hole Overseaming

AND

SEWING MACHINE,

Its Wonderful Popularity Conclusive Proof of its Great Merit.

The increase in the demand for this valuable machine has been TEN FOLD during the last seven months of its first year before the public.

This *grand and surprising success is unprecedented* in the history of sewing-machines, and we feel fully warranted in claiming that

IT HAS NO EQUAL.

BEING ABSOLUTELY THE BEST

FAMILY MACHINE

IN THE WORLD,

And Intrinsically the Cheapest.

It is really two machines combined in one, (by a simple and beautiful mechanical arrangement,) making both the Shuttle or Lock-stitch, and the Overseaming and Button-hole stitch, with equal facility and perfection. It executes in the *very best manner* every variety of sewing, such as flemming, Felling, Cording, Tucking, Stitching, Braiding and Quilting, Gathering and sewing on, (done at the same time,) and in addition, Overseams, Embroiders on the edge, and makes beautiful Button and Eyelet-holes in all fabrics.

Every Machine is warranted by the Company, or its Agents, to give entire satisfaction.

Circulars, with full particulars and samples of work done on this Machine, can be had on application at the Salesrooms of

OUR NEW
FAMILY
SEWING MACHINE.

The superior merits of the "Singer" Machines over all others, for either Family use or Manufacturing purposes, are so well established and so generally admitted, that an enumeration of their relative excellences is no longer considered necessary.

OUR NEW FAMILY MACHINE,

which has been brought to perfection regardless of time, labor, or expense, is now confidently presented to the public as incomparably the Best Sewing Machine in existence. The machine in question is Simple, Compact, Durable and Beautiful. It is quiet, light running, and

CAPABLE OF PERFORMING A RANGE AND VARIETY OF WORK

never before attempted upon a single Machine,—using either SILK, TWIST, LINEN OR COTTON THREAD, and sewing with equal facility the very finest and coarsest materials, and anything between the two extremes, in the most beautiful and substantial manner. Its attachments for Hemming, Braiding, Cording, Tucking, Quilting, Felling, Trimming, Binding, etc., are Novel and Practical, and have been invented and adjusted especially for this Machine.

New designs of the Unique, Useful, and Popular Folding Tops and Cabinet Cases, peculiar to the Machines manufactured by this Company, have been prepared for enclosing the new Machine.

A faint idea, however, can at best be conveyed through the medium of a (necessarily) limited advertisement; and we therefore urge every person in quest of a Sewing Machine, by all means to examine and test, if they can possibly do so, all the leading rival Machines before making a purchase. A selection can then be made understandingly. Branches or agencies for supplying the "Singer" Machines will be found in nearly every city and town throughout the civilized world, where Machines will be cheerfully exhibited, and any information promptly furnished. Or communications may be addressed to

NATURE'S GREAT RESTORER.

SCHEETZ'S

CELEBRATED

BITTER CORDIAL.

This medical preparation is now offered to the public as a reliable substitute for the many worthless compounds which now flood the market. It is purely vegetable, composed of various herbs, gathered from the great storehouse of nature, and selected with the utmost care. It is not recommended as a CURE ALL, but by its direct and salutary influence upon the Heart, Liver, Kidneys, Lungs, Stomach and Bowels, it acts both as a preventive and cure for many of the diseases to which those organs are subject. It is a reliable FAMILY MEDICINE, and can be taken by either infant or adult with the same beneficial results. It is a certain, prompt and speedy remedy for DIARRHŒA, DYSENTERY, BOWEL COMPLAINT, DYSPEPSIA, LOWNESS OF SPIRITS, FAINTINGS, SICK-HEADACHE, &c. For Chills and Fevers of all kinds, it is far better and safer than quinine, without any of its pernicious effects. It creates an appetite, proves a powerful digester of food, and will counteract the effects of liquor in a few minutes.

THE GREAT

ZINGARI BITTERS.

A Safe Blood Purifier,

A Splendid Tonic,

A Pleasant Beverage,

A CERTAIN CURE

AND

PREVENTIVE OF DISEASES.

The ZINGARI BITTERS are compounded from a prescription of the celebrated Egyptian physician DR. CHEOPSUS, who, after years of trial and experiment, discovered the Zingari Herb—the most remarkable vegetable production, the earth, perhaps, has ever yielded—certainly the most effective in the cure of disease. It, in combination with the other valuable properties of which the Zingari Bitters is composed, will cure

Dyspepsia, Fever and Ague, Bilious Fever, Cholic, Colds, Bronchitis, Consumption in its first stage, Flatulency, Nervous Debility, Female Complaints, Rheumatism, Dysentery, Acute and Chronic Diarrhœa, Cholera Morbus, Cholera, Typhoid and Typhus Fever, Yellow Fever, Scrofula, Diseases of the Kidneys, Habitual Costiveness &c., &c.

In the PREVENTION and CURE of the above diseases, it has never been known to fail, as thousands of our most prominent citizens throughout all parts of the country will testify. Let the afflicted send for circular containing testimonials and certificates of those who have been cured after their cases have been pronounced hopeless by our best physicians.

AYER'S

HAIR VIGOR,

FOR THE RENOVATION OF THE HAIR.

THE GREAT DESIDERATUM OF THE AGE.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color and the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts longer on the hair, giving it a rich glossy lustre and a grateful perfume.

AYER'S CATHARTIC PILLS,

For all the purposes of a Laxative Medicine.

Perhaps no one Medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative Pill. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these Pills rapidly cure:—

For DYSPEPSIA or INDIGESTION, LISTLESSNESS, LANGUOR and LOSS of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For LIVER COMPLAINT and its various symptoms, BILLIOUS HEADACHE, SICK HEADACHE, JAUNDICE or Green SICKNESS, Bilious Colic and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For DYSENTERY or DIARRHŒA, but one mild dose is generally required.

For RHEUMATISM, GOUT, GRAVEL, PALPITATION OF THE HEART, PAIN IN THE SIDE, BACK and LOINS, they should be continuously taken, as required, to change the diseased action of the system. With such change these complaints disappear.

For DROPSY and DROPSICAL SWELLINGS they should be taken in large and frequent doses to produce the effect of a drastic purge.

For SUPPRESSION a large dose should be taken as it produces the desired effect by sympathy.

As a DINNER PILL, take one or two pills to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these PILLS makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

The Waters' Pianos are known as among the very best.—*N. Y. Evangelist.*

We can speak of the merits of the Waters' Pianos from personal knowledge as being of the very best quality.—*Christian Intelligencer.*

The Waters' Pianos are built of the very best and most thoroughly seasoned material.—*Advocate and Journal.*

Our friends will find at Mr. Waters' store the very best assortment of Pianos, Melodeons and Organs to be found in the United States.—*Graham's Magazine.*

MUSICAL DOINGS.—Since Mr. Waters gave up publishing sheet music, he has devoted his whole capital and attention to the manufacture and sale of Pianos and Melodeons. He has just issued a catalogue of his new instruments, giving a new scale of prices, which shows a marked reduction from former rates, and his Pianos have recently been awarded the First Premium at several Fairs. Many people of the present day, who are attracted, if not confused, with the flaming adeertisements of rival piano houses, probably overlook the modest manufacturer like Mr. Waters; but we happen to khow that his instruments earned him a good reputation long before Expositions and "honors" connected therewith were ever thought of; indeed, we have one of Mr. Waters' Pianofortes now in our residence (where it has stood for many years,) of which any manufacturer in the world might well be proud. We have always been delighted with it as a sweet-toned and powerful instrument, and there is no doubt of its durability; more than this, some of the best amateur players in the city, as well as several celebrated pianists, have performed on the same piano, and all pronounce it a superior and first-class instrument. Stronger endorsement we could not give.—*Home Journal.* jan15,'69.

AYER'S SARSAPARILLA,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this Sarsaparilla is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this Sarsaparilla: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears, and other eruptions or visible forms of Scrofulous disease. Also in the more concealed forms, as Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia, and the various Ulcerous affections of the muscular and nervous systems.

Syphilis or Venereal and Mercurial Diseases are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. Leucorrhœa or Whites, Uterine Ulcerations and Female Diseases, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. Rheumatism and Gout, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also Liver Complaints, Torpidity, Congestion or Inflammation of the Liver, and Jaundice, when arising, as they often do, from the rankling poisons in the blood. This SARSAPARILLA is a great restorer for the strength and vigor of the system. Those who are Languid and Listless, Despondent, Sleepless, and troubled with Nervous Apprehensions or Fears, or any of the affections symptomatic of Weakness, will find immediate relief and convincing evidence of its restorative power upon trial.

Miscellaneous.

AYER'S CHERRY PECTORAL,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometime subject to colds and coughs, all should be provided with this antidote for them.

Although settled Consumption is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the Cherry Pectoral they subside and disappear.

Singers and public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the Cherry Pectoral in small and frequent doses.

Generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

AYER'S AGUE CURE,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies it does Cure, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in no wise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by
